

MASL Family Plant Nutrition

Crop-Specific Series

Formulated with targeted nutrients—B Vitamins, Glutathione, Phycocyanin, Polyglutamic Acid, Seaweed Extracts, and other beneficial organic ingredients—
to safeguard crop health and maximize productivity.

Vegetable Flower & Fruit Set Specialty Fertilizer

Technical Specification:

Amino Acids $\geq 100\text{g/L}$, Cu+Fe+Mn+Zn+B+Mo $\geq 20\text{g/L}$

Ingredient	Concentration
Free Amino Acids	100g/L
Mg	20g/L
Fe	2.5g/L
Mn	10g/L
Cu	1g/L
Zn	10g/L
Water-soluble Boron	5g/L
Polypeptides	1g/L

Benefits:

A highly active water-soluble fertilizer specifically developed for the flower and fruit setting period of vegetable and fruit crops. Uses highly active L- α free amino acids as the core carrier, synergized with chelated Magnesium, Iron, Manganese, Copper, Zinc, Boron, and the active essence of Polypeptides, precisely matching the core needs of flowering differentiation and young fruit development. Strongly activates flower bud energy metabolism and pollen germination vigor through amino acids, driving uniform flowering and a high fruit set rate. Chelated Zinc and Boron target and optimize pollen tube extension and ovary development, ensuring uniform formation and firm attachment of young fruits. Iron and Manganese simultaneously enhance leaf photosynthetic efficiency and enzyme system activity, promoting the efficient transport and accumulation of assimilates to the fruits. Polypeptides deeply improve cell osmoregulation capacity, significantly alleviating stress from high temperature, drought, flower/fruit drop, and physiological disorders, maintaining sustained healthy growth potential for flowers and fruits. Ultimately

Fruiting Vegetable Formula

lays the foundation for plump fruit shape, bright color, and stable yield increase for high quality and yield, providing core assurance for a bountiful harvest.

Applicable Crops: Fruit vegetables and leafy vegetables

Application Instructions:

Foliar Spray: Dilute 800-1000 times. Apply at 7-10 day intervals for 2-3 consecutive applications.

Fertigation/Drip Irrigation: 15-30L/ha

Cautions:

- 1.Avoid mixing with strongly acidic or alkaline fertilizers and pesticides, as this may affect product efficacy. If mixing with other products is intended, conduct a small-scale compatibility test first.
- 2.Reapplication at a reduced rate may be necessary if rainfall occurs within 4 hours of spraying.

Storage:

- 1.Store and transport in the original container. Keep sealed in a cool, dry place.
- 2.Store separately from food, drink, and feed. Keep out of reach of children and livestock.

Production Date and Lot No.: See bottle cap. Shelf Life: 36 months.
